

# The Climate Reality Project®

## OUR MISSION

Founded by former US Vice President Al Gore, The Climate Reality Project works to catalyze a global solution to the climate crisis by making urgent action a necessity across every sector of society.

## OUR VISION

A livable planet powered by affordable, abundant, and universally accessible clean energy.

## 20 YEARS OF INSPIRING CLIMATE LEADERSHIP AND ACTION

Twenty years ago, former US Vice President Al Gore founded The Climate Reality Project to train advocates around the world to share the truth about the climate crisis and its solutions, starting with 50 people at his family farm in Tennessee.

Today, the community of leaders that began in Tennessee has grown to a global network of 4.5 million from 196 countries and territories.

Together, this network has been instrumental in driving climate and clean energy wins everywhere from town halls to solutions startups to global summits.

In 2026, Climate Reality marks 20 years of inspiring climate leadership and action at every level with a year of ambitious initiatives to train a new generation of leaders and propel climate progress worldwide.

## WHAT WE DO

We recruit, train, and mobilize leaders to drive bold climate solutions and speed the global shift to affordable clean energy.

Our signature trainings recruit aspiring change makers to learn from Vice President Gore and renowned experts, becoming Climate Reality Leaders with the skills, know-how, and network to make a difference where it matters.

These “super activists” are the core of our global network of 4.5 million, leading campaigns, Hours of Action and other efforts to build political will and pass ambitious policies in three areas critical for climate progress:

- Reducing Emissions
- Financing a Just Transition
- Promoting Global Climate Leadership

After more than 60 trainings across the planet, we’ve built a network with the numbers, reach, and skills to advance climate action, accelerate energy transition worldwide, and take on the fossil fuel industry.

## WHY WE CAN WIN

**Our Founder:** For decades, Al Gore has been synonymous with climate action. He’s recognized as a foremost voice on the issue, inspiring action everywhere from rural communities to country capitals to the United Nations.

**World-Class Trainings:** Our best-in-class training programs equip people committed to making a difference with the knowledge, tools, skills and network to act on climate and get results.

**Climate Reality Leaders:** Our community of “super activists” trained by Vice President Gore are catalysts for change across sectors and continents – mobilizing communities, transforming businesses, driving policy change, and so much more.

**A Global Engagement Model:** Our network of 4.5 million advocates is supported by nine country teams spanning six regions and hundreds of city hubs, enabling us to leverage local expertise and coordinate campaigns across the Global North and South for maximum impact.
