

The Climate Reality Project®

THE CLIMATE REALITY PROJECT

Founded and chaired by Nobel Laureate and former US Vice President Al Gore, The Climate Reality Project is dedicated to catalyzing a global solution to the climate crisis by making urgent action a necessity across every level of society.

WE MUST CHANGE. WE CAN CHANGE. WE WILL CHANGE.

With glaciers melting, seas rising, and 16 of the 17 hottest years on record coming this century, we know humanity must change and act boldly to solve the climate crisis.

The good news is that we know we can. Solar, wind, and other renewable solutions are becoming more affordable every year. And all around the world, countries from China to Chile are seizing the moment, working to cut emissions under the Paris Agreement and create a safe, sustainable, and prosperous future powered by clean energy.

At Climate Reality, our job is to ensure we will. Led by Vice President Gore and CEO Ken Berlin, we use twenty-first century digital tools and activist trainings to share the truth about the crisis and empower everyday people to become powerful forces for change.

The result: nearly 15,200 Climate Reality Leader activists spreading climate hope and confronting denial everywhere from street corners to the White House. A growing movement of millions speaking truth to power and fighting for climate solutions at every level. A clean energy revolution accelerating planet-wide.

The road forward is clear. The power to change is in our hands. A sustainable future is in reach. Join us, and together, we'll make it a reality.

KEY INITIATIVES

- The Climate Reality Leadership Corps: Advocates and influencers in over 100 countries trained by Vice President Gore to mobilize communities for action.
- 24 Hours of Reality: Annual global broadcast that focuses the world's attention for one day on the truth, scope, and scale of the climate crisis across continents.
- Climate action campaigns: US and branch offices in strategic countries work to advance pro-climate policies and strengthen national commitments to action.
- Climate Reality chapters: Local activist networks in key regions fight the Trump Administration's fossil fuel agenda and build support for clean energy solutions.
- US climate campaigns: Activist networks in pivotal states build strong popular support for clean energy solutions and other pro-climate policies.
- *100% Committed*: Activists partner with cities, communities, businesses, and universities to help them transition to 100 percent renewable electricity.
- *Pricing Pollution™*: Community activists work for state-level carbon-pricing initiatives that create fair energy solutions and ensure big polluters pay for climate destruction.
- Climate Speakers Network: Building a more diverse movement by training faith, business, and cultural community leaders as trusted messengers on climate.

JOIN US AND HELP MAKE THE SUSTAINABLE FUTURE WE WANT A REALITY.
