

CLIMATE REALITY LEADERSHIP CORPS

VIRTUAL GLOBAL TRAINING | OCTOBER 2021

Our climate is changing. Inequality is growing. We have to act now.

This October, make a difference and join the Climate Reality Leadership Corps by attending our online Global Training. Gain the tools, knowledge, and network to help stop global warming and build a more just world for all.

This free online training led by former US Vice President Al Gore featuring an all-star lineup of leading scientists, activists, and innovators comes at a critical moment for our planet. Together, the continuing pandemic, growing inequality, and the deepening climate crisis threaten not just our world today, but the future we hand to our children.

The good news is that what happens next is up to us.

Join us for this training and learn about the science of how our climate is changing, how rising temperatures fuel rising injustice, and how communities around the world are implementing solutions that work, from forest preservation to just energy transition.

Over the course of multiple days, a combination of live broadcasts, on-demand programming, and small-group sessions will explore four key themes: the public health impacts of the climate crisis, global climate justice, grassroots advocacy, and climate solutions.

The training is your chance to not only learn what the climate crisis means for you, but to build the skills and network to make a difference by mobilizing your community, pressuring leaders to act, and driving change at this decisive time.

This is our moment. Join us and learn how you can help make 2021 a turning point for the planet.

WHEN IS THE TRAINING?

- On-demand video sessions will be available from October 16–24.
- Interactive Zoom sessions will take place from October 18–24.
- Four required two-hour broadcast sessions will air on October 16, 17, 23, and 24. You will be able to choose from two broadcast schedules. Each two hour session includes presentations and Zoom small group meet-ups.

WHAT YOU'LL GET AT THE TRAINING:

- Learn to become an effective leader, equipped with the skills to inspire audiences and shape opinion through public speaking, political advocacy, community organizing, and digital media.
- Hear from diverse voices about successful climate solutions from around the world—from community-based initiatives to international approaches.
- Discover how the climate movement is prioritizing equity and justice in action.
- Connect with other Climate Reality Leaders and become part of the global network of over 36,000 advocates.

HOW THE TRAINING WORKS:

While the Climate Reality Leadership Corps training is primarily conducted in English, some of the video content will have French, Mandarin Chinese, Portuguese, and Japanese captions. The training will take place over 11 days, requiring a minimum of 12 hours.

This virtual training utilizes a unique model, combining the best of online events, online education, and digital media.

- **Compelling Content.** Participate in live and on-demand sessions on the science and solutions of the climate crisis and the skills to inspire climate action.
- **Customization.** Complete training requirements with the flexibility to design an agenda based on your interests and availability. Want to know more about the fight for environmental justice or focus on solutions? It's easy to customize your experience with our platform.
- **Community Building.** Network with attendees from around the world in similar industries and with shared interests. Build deeper relationships through a small group of participants based on your region led by a previously trained Climate Reality Leader.

Attendees who complete the training requirements become **Climate Reality Leaders**, joining a network of over 36,000 activists in more than 160 countries around the world.
